## ABOUT THE COLLECTION

In order to meet the expectations of our customers who are looking for doors with excellent thermal insulation, high security and timeless design, we have created the ROKA Select Doors collection. This is an ideal solution for anyone looking for solid yet elegant exterior doors of reliable quality.

In order to provide customers with timeless design and stylish appearance of the entrance area, we have carefully selected 22 door models. Each has a unique design to suit a variety of architectural styles, making our doors perfect for single-family homes where aesthetics and functionality go hand in hand.

Quality is a priority for us, which is why all doors in the Select collection are made from the renowned Wicona profiles. High-quality materials and hardware, mainly from rec-

ognized German manufacturers, ensure durability and security. In addition, this collection offers the possibility to personalize each model thanks to a wide range of options that allow you to perfectly adapt the door to your individual needs and the style of your home. We invite you to discover ROKA Select Doors and emphasize the character of your entrance area in an elegant and robust way.

## SELECT CHOICE FOR YOUR ENTRANCE.

## PREMIUM QUALITY

Selected, superior quality is achieved by using materials from reputable manufacturers to ensure durability and exceptional aesthetics.

## PERSONALIZATION

Customize your door with three types of exclusive exterior finishes to give it a unique character and individuality.

## THE INSIDE COUNTS

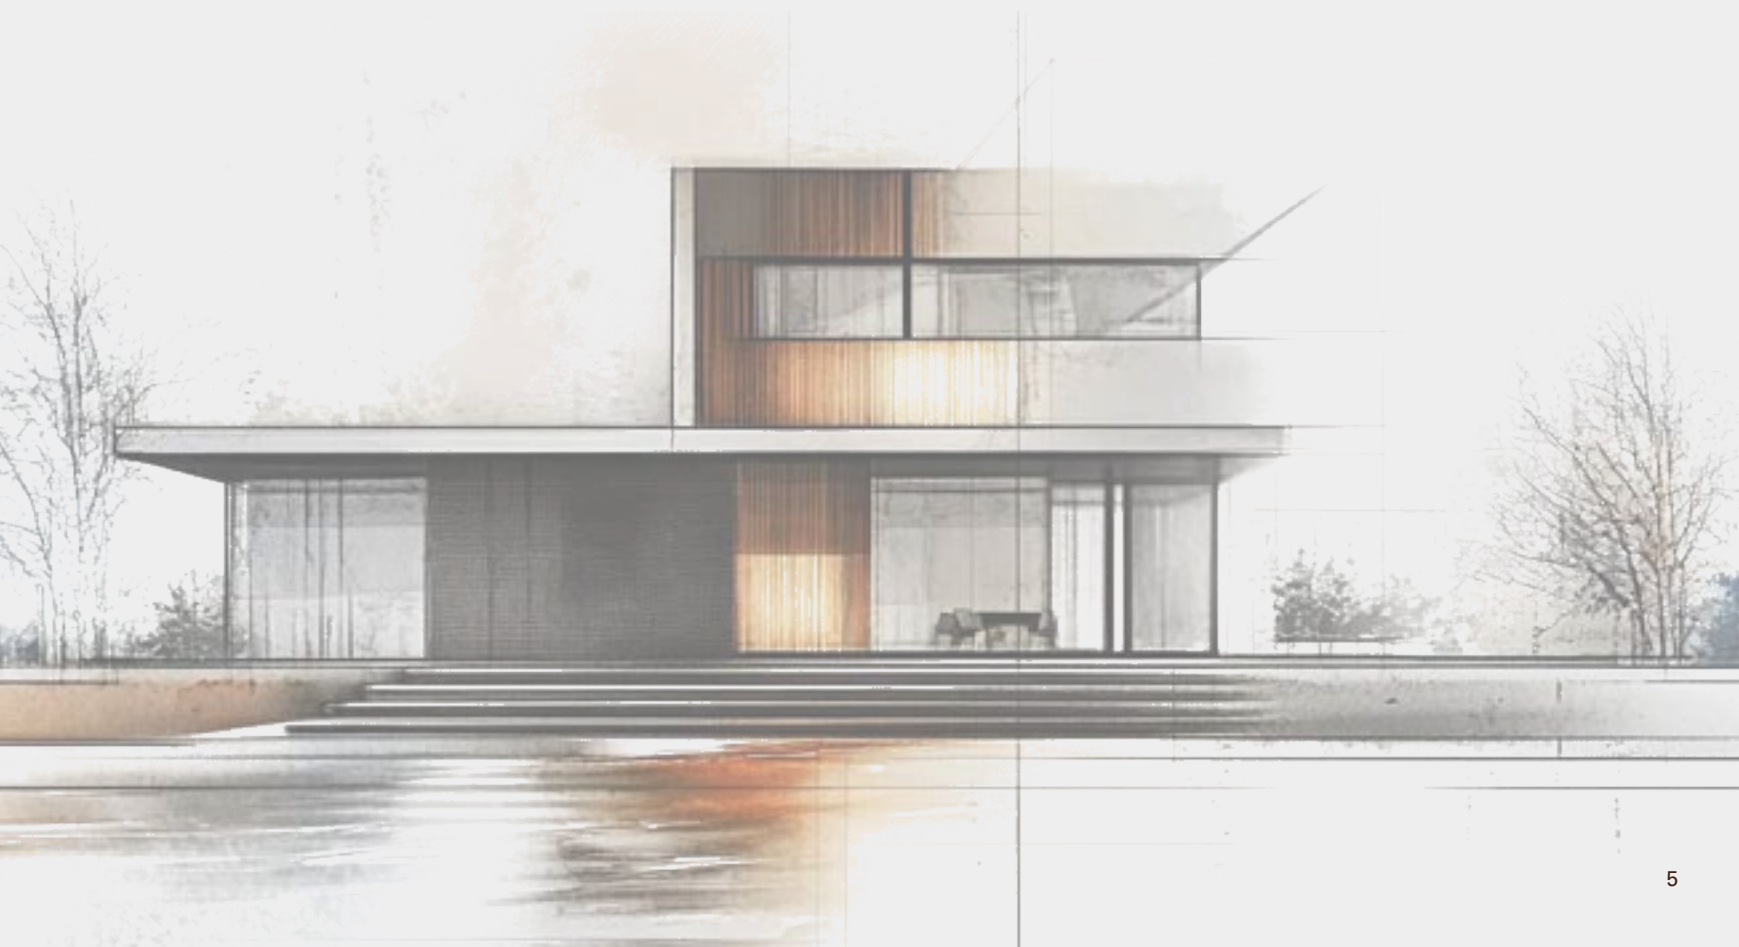

Personalize the inside of your door to match your interior design and give it a consistent and elegant look.

## Select ACCESSORIES

Enhance your door with Select accessories such as solid locks and access systems for added convenience and security.

## OWN MORE

Customize your door by choosing from three sets designed to meet different aesthetic and style needs.

The Select collection of doors is a unique combination of master craftsmanship and individual expression, signed by the ROKA brand. Designed with the discerning customer in mind, they offer the ability to personalize every detail - from color, handle and hinges to lock and finish. Be inspired by our Select

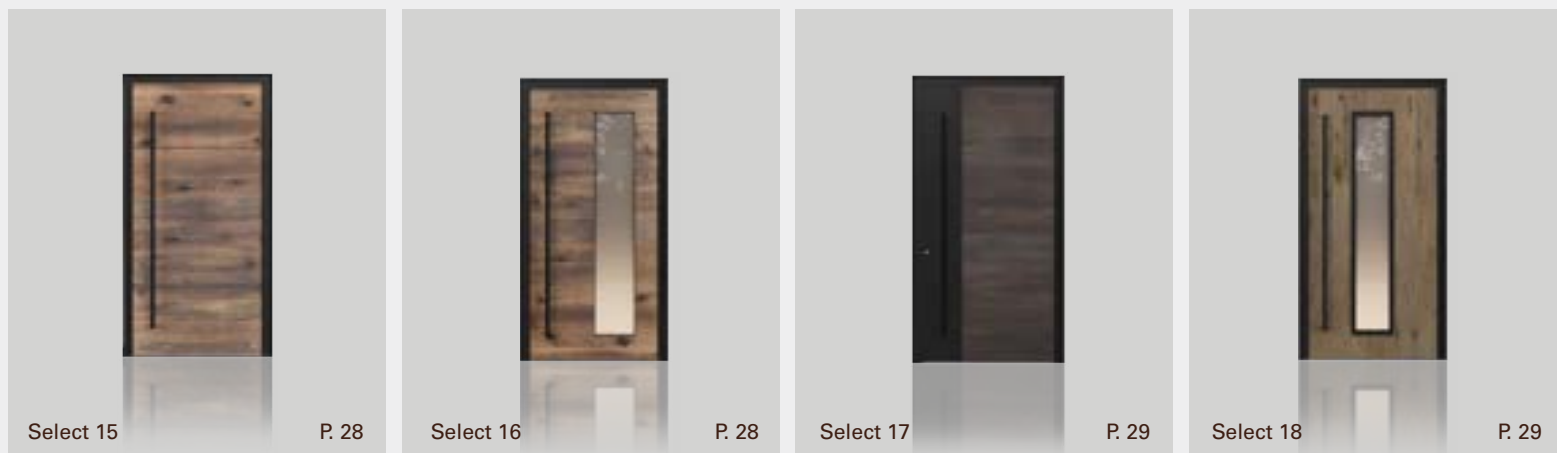

collection of models with timeless designs that combine versatility with current architectural trends. The Select collection is a harmony of functionality and aesthetics, where every detail contributes to your entrance.

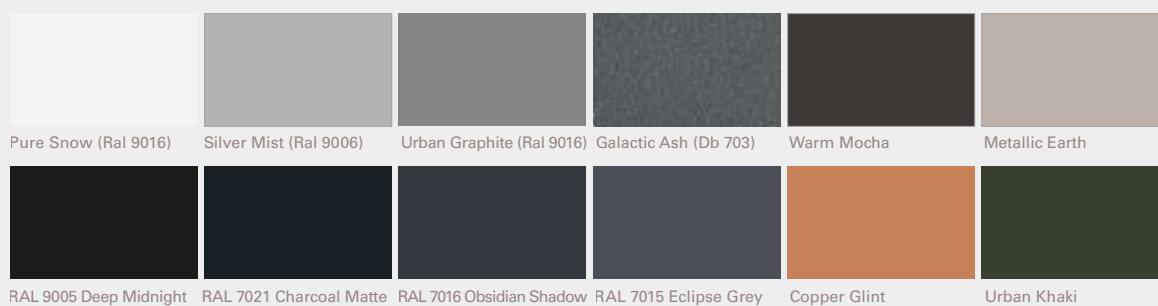

COLLECTION OVERVIEW

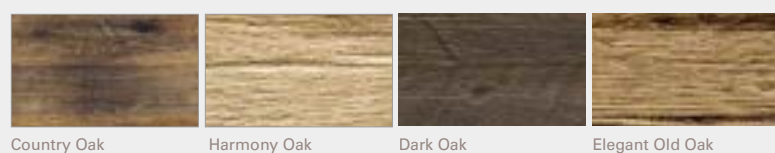

## POWDER COATINGS - EXTERIOR AND INTERIOR

## CERAMICS - EXTERIOR

## WOOD - EXTERIOR\*

## GLASS

COUNTRY OAK

HARMONY OAK

DARK OAK

ELEGANT OLD OAK

Wood has always symbolized natural beauty and strength, and its unique structure and grain make each door a unique and timeless decoration of the entrance area. By choosing veneer, you are investing in a material that captures the true character of nature, highlighting the beauty of the knots and making each door attractive and stylish.

Due to natural characteristics, the colors in our catalog are for reference only. Actual color and appearance of the same surface may vary depending on factors such as wood species, grain pattern and natural aging. These differences are not defects, but add to the authenticity and charm of real wood.

OSSIDO NERO

OSSIDO BRUNO

OXIDE NERO

PIETRA DI SAVOIA GRIGA

We present new ceramic surfaces that combine aesthetics, durability and functionality. Perfect for modern and classic interiors.

Our new surfaces are a combination of high quality and original design, giving interiors a luxurious character.

EQUIPMENT - OPTIONAL

ES 2450 CONCEALED DOOR HINGES (2 PIECES)

The fully concealed door hinge makes the pivot points invisible from the outside. The hinge combines the highest standards of design with robust technology. The opening angle of the hinge is 90 degrees.

ES 4035 ELECTRONIC VIEWFINDER

Electronic viewfinder with 3.5 LCD monitor, flush with the door panel. LCD cover in the color of door.

ES 2300 DOOR CLOSER

Door closer with sliding rail and opening lock in white or EV1. An integrated retarder slows down the closing of a wide-open door.

PROFILE RECESSED INTO THE FLOOR

The profile recessed into the floor provides very high insulation properties and stability. Different heights available

ES 2320 CONCEALED DOOR CLOSER

Concealed door closer with sliding rail and opening lock is functional and invisible mechanism for controlling door locking systems.

When you choose a door from the Roka Select collection, you get not only high quality and design, but also Select solutions that combine functionality and security. You can choose accessories that perfectly match the door to your needs, choosing from modern add-ons that give you peace of mind and the highest level of protection.

## SIDE PART

- Fixed sidelight / design or natural colors
- 3-pane package - Ug/W 0.7 m2K ("warm frame", black)
- VSG 6 mm laminated safety glass
- Clear glas, Sandblasted or Satin-finished glass
- RC2/P4 Glass (optional)
- Height up to 2250 mm

NOTE: For technical reasons, milling or Alunox applications may differ slightly between the door leaf and the sidelight; this is not a defect!

Between the door leaf and the side part, the relief grooves or Alunox applications can be

EDGEPRO PROFILE

Door leaves flush on the inside and outside

Simple design with no offsets

Insulating wedge (insulation profile) in the doorframe and door leaf

INTERNAL ADAPTER PROFILES

Specially developed adapter profiles for concealed mounting connections

No visible screw heads

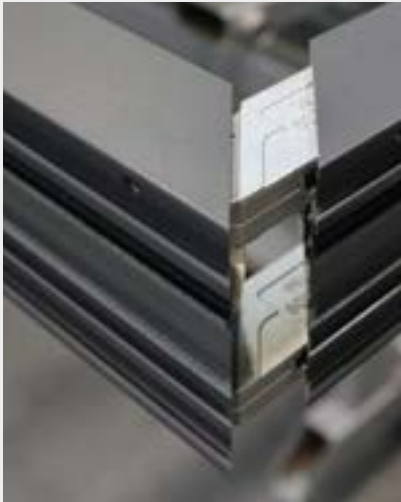

Easy assembly

Transparent, smooth and optimized design lines

SEALING LEVELS

Reliable sealing - this is made possible by the concept of multiple sealing, cover gaskets with profiled corners for longer service life

ROBUST CORNER PROFILES

Patented corner technology with additional adhesive distribution to both sides

Provides durable and stable corner connection

THRESHOLD

Thermally insulated with aluminum

High waterproofness, resistance to wind load and acoustic insulation

DOOR LEAF WITH DOUBLE-SIDED OVERLAY PANEL

Door leaf with double-sided overlay panel

Exclusive series profiles

Profile thickness up to 3 mm  
3 mm thick external aluminum plates

When you choose a door from the Roka Select collection, you get not only high quality and design, but also Select solutions that combine functionality and security. You can

choose accessories that perfectly match the door to your needs, choosing from modern add-ons that give you peace of mind and the highest level of protection.

Air permeability:	up to grade 4
Leakage:	up to 7A
Resistance to:	C2 class
Soundproofing:	RW (C;Ctr) up to 43 (-2;-5) dB.
Continuous function	up to class 7 (500,000 cycles)
Burglar resistance:	up to RC2
Heat transfer coefficients for doors Ud	Our Ud values were calculated based on DIN EN ISO 10077-1 standard. They refer to doors with dimensions of 1150 x 2250 mm.

ACCESS CONTROL AND SECURITY SYSTEMS

EKEY DLINE FINGERPRINT SCANNER

The ekey dLine fingerprint scanner makes doors Select, connecting access to the Select home. Manage it via Selectphone or tablet.

BIOKEY® BIOMETRIC FINGERPRINT READER

The BIOKEY® access system is simple, safe, and programmable on-site without a computer or code, supporting up to 150 users.

BIOKEY® RFID TRANSPONDER

BioKey® RFID enables secure, contactless door access with key fobs (1x master, 1x user), with extras available.

BIOKEY® NUMERIC KEYPAD

The durable BioKey® stainless steel keypad features tamper-proof, time-controlled locking and is part of the trusted BIOKEY® family.

ES 1200 3-POINT LOCK WITH AUTO-MATIC LOCKING MECHANISM

Automatic 3-point lock with two automatic latch bolts and main lock (mechanical locking and automatic opening)

ES 1750 5-POINT LOCK

A 5-point automatic safety lock, which is a combination of a latch bolt and a hook bolt (mechanical locking and automatic opening).

ES 1772 M-TS 5-POINT LOCK

The automatic multi-point lock is fast (0.3s), quiet, and works with a fingerprint scanner, keypad, or Selectphone.

## ADDITIONAL ACCESS CONTROL AND SECURITY SYSTEMS

**ES 1000 3-FACH VERRIEGELUNG**

3-point safety lock with two solid bolts and a master lock.

**ES 1750 5-POINT LOCK**

5-point automatic safety lock, which is a combination of latch bolt and hook bolt

**ES 2100 ELECTRIC DOOR STRIKE**

Electric door strike with daytime function.

**ES 22001 LIVIUS CYLINDRICAL INSERT**

Livius cylindrical insert with security card and 5 double-sided keys.

**ES 2211**

Standard cylindrical insert with door knob with 5 keys.
